JENKINS

The screenshot shows the Jenkins web interface in a browser. The address bar indicates the URL is `localhost:8081/job/test2/1/console`. The Jenkins logo and name are at the top left. A search bar and user profile (juan esteban garcia) are at the top right. The main navigation bar shows the path: Dashboard > test2 > #1 > Console Output. On the left sidebar, the 'Console Output' tab is selected. The main content area displays the console output for build #1 of job test2. The output shows the build starting with user 'juan esteban garcia', running as SYSTEM, and cloning a repository from `https://github.com/juanesgarg/CI`. The build steps include initializing git, fetching upstream changes, and checking out the main branch. The console output is displayed in a light gray box with a red 'x' icon and the title 'Console Output'. There are buttons for 'Download', 'Copy', and 'View as plain text'.

```
Started by user juan esteban garcia
Running as SYSTEM
Building in workspace C:\ProgramData\Jenkins\jenkins\workspace\test2
The recommended git tool is: NONE
No credentials specified
Cloning the remote git repository
Cloning repository https://github.com/juanesgarg/CI
> git.exe init C:\ProgramData\Jenkins\jenkins\workspace\test2 # timeout=10
Fetching upstream changes from https://github.com/juanesgarg/CI
> git.exe --version # timeout=10
> git --version # 'git version 2.45.2.windows.1'
> git.exe fetch --tags --force --progress -- https://github.com/juanesgarg/CI +refs/heads/*:refs/remotes/origin/* # timeout=10
> git.exe config remote.origin.url https://github.com/juanesgarg/CI # timeout=10
> git.exe config --add remote.origin.fetch +refs/heads/*:refs/remotes/origin/* # timeout=10
Avoid second fetch
> git.exe rev-parse "refs/remotes/origin/main^{commit}" # timeout=10
Checking out Revision 66307b863ae91ce4291a0f267b2290ec9be65191 (refs/remotes/origin/main)
> git.exe config core.sparsecheckout # timeout=10
> git.exe checkout -f 66307b863ae91ce4291a0f267b2290ec9be65191 # timeout=10
Commit message: "5th commit"
```
